‚ Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

The Characters used for Classification are :-

100A1 } Vessels built of Iron or Steel according to
90A1 } the Rules in force since 1869.

A1 Iron or Steel vessels built for a special purpose.

The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped; a line after the character (thus, A–) that the equipment is deficient from that required by the Rules.

The words *"with freeboard"* under the character signify that the freeboard assigned is a condition of the vessel's class.

Classification of the late Underwriters' Registry.

A1* A1* } Characters of Iron, Steel or Composite
A1 A1, } Vessels built according to the Rules of Underwriters' Registry.

Vessels classed in Red were built under inspection of Surveyors to Underwriters' Registry.

The Classification Cols. when left blank indicate vessels never classed by the Society.

In Column 5 three dots with date (⋯ 6,48) indicate withdrawal of Class at Owners' request at date specified.

In Column 7 Lv signifies the classification of the Underwriters' Registry, and the letters *a, b, c*, &c., indicate the letters and equipment numbers in the Rules. These letters in red are used to determine fees for Special Surveys.

A black line with date under it, in Classification Col. (thus, 6,48), indicates that vessel's character was expunged from Register Book at date specified because, on account of reported defects, the vessel was not entitled to retain her classification; a red line with date (thus 6,48), indicates withdrawal of class because of non-compliance with Society's Rules.

A date in Classification Column, without character, indicates that the class has expired, or been withdrawn in default of Survey, or non-payment of fees.

✠ in the Classification Column signifies that the vessel was built under Special Survey.
